

Mipa 1K-Plastic-Grundierfiller

the solution to plastics

Mipa 1K-Plastic-Grundierfiller is a fast drying plastic primer with good filling properties for the use on many commonly used plastics in the automotive sector. Due to its special formulation Mipa 1K-Plastic-Grundierfiller can also be applied on extremely difficult plastics such as PP without additional pretreatment. Complex processes such as flame treatment or plasma processing become unnecessary in many cases.
